The working brain : an introduction to neuropsychology (Book, 1973) [localize-img.justmote.me]

The main part of the book describes what we know today about the individual systems that make up the human brain and about the role of the individual zones of the cerebral hemispheres in the task of providing the necessary conditions for higher forms of mental activity to take place.

The Working Brain Introduction To Neuropsychology PDF Book

Na verdade, é impossível avaliar o nível de evidência que suportaria muitos dos resultados referidos, pois tal é quase ignorado por Luria.
