Linguistics

Bulletin of the Department of Comparative Philology and linguistics. In 1954 André-Georges Haudricourt established that phonemic tonal systems evolved to make up for the loss of a voicing contrast in syllable-initial position as when p- and b- are no longer differentiated or the loss of a syllable-final laryngeal consonant -h or -ʔ. The full paradigm of verbal inflections is given in 15.

linguistic morphology

We can assume that this marking is not of great time depth. The eyes are usually brown, though black eyes are sometimes found to occur.

Areal Diffusion and Genetic Inheritance: Problems in Comparative Linguistics (Oxford Linguistics).

The realistic art of the Magdalenians is succeeded by a more geometric style. Bulletin of the School of Oriental and African Studies 8: 2-3, 1926.

Linguistics 001

The fragmentation of the proto-language probably preceded the movements in question, and the speciation of Italic into the Latino-Faliscan and Sibillio-Osco-Umbrian plus South Piceno sub-groups may well have taken place before the migration of either into the soil of Italy.
