### China's role in African infrastructure and capital projects

A consumer-first mindset starts at the executive suite and flows to all levels and areas in the organization.

### Economics of Land Degradation in China

By the end of the 20th century, there were an estimated 33 million ethnic Chinese living overseas, an increase from around 22 million in 1985 and from 12. Similarly, old distribution networks are being replaced or enabled by digital technology. By the 1980s much emphasis was placed on the role of advertising in meeting the modernization goals being promoted by Deng.

### China Overview

According to research conducted in 2017 by Ipsos, an independent worldwide research group, and based on Tencent WeChat Pay data, fully 52% of Chinese consumers use cash for only 20% or less of their monthly consumption.

### Chinese economic reform

The of was a major reform, and policies and regulations soon followed, although in sectors such as and remained.

### One Belt One Road Initiative of China: Implication for Future of Global Development

China is the most populated country in the world and one of the largest producers and consumers of agricultural products. Throughout the year, tensions between the United States and China have escalated over a number of issues, including Hong Kong, the prolonged trade war, and increased tech rivalry.

### China's Environmental Challenge: Political, Social and Economic Implications

The Tibetans and Uyghurs in particular have resisted Chinese efforts to intensify control over their territories, and they enjoy some degree of international support. These two concepts envision the creation of a highly integrated, cooperative, and mutually beneficial set of maritime and land-based economic corridors linking European and Asian markets.

### **Impact of the Chinese Economy on the U.S. Economy in 2020**

Businesses will need to excel at both growing the core business and innovating to spur future growth. Today, however, the situation is somewhat changed. Populism is taking policy off track.

### **China: An Emerging Destination for Economic Migration**

And many parents will face a most unfortunate reality: outliving their children and therefore dying alone.
