When I read the description of the book, I thought, this could be interesting and boy was it and more! They noted that they felt a sense of security when follow-ups occur. It seems important that healthcare organisations safeguard effective and collaborative models. It was the love of a father for his son and I applaud the author for being able to develop this subplot so effectively.

## “Being in good hands”: next of kin’s perceptions of continuity of care in patients with heart failure

Several Wuhan relatives have tried to file lawsuits seeking compensation and punishment of officials, but say courts have refused to accept them. I wouldn't call Next of Kin an impressive debut but the central plot as to why these murders are being committed is an interesting one. The influence of chronic heart failure in patient-partner dyads: a comparative study addressing issues of health-related quality of life.
