## How will Socialism save the Climate Crisis? : CapitalismVSocialism

I want others to succeed in figuring out how to provide clean water for me; how to produce energy so I can warm my home, cook my food, and drive my car; how to keep my computer working; how to figure out new ways of producing more food on the same acreage to feed growing populations.

### Socialism Doesn't Work

From that perspective I guess we are more Socialists today than 20 years ago. But what is the answer when are differences slowly but surely evolve into animus and rising violence, as they are now? Socialism destroys free markets which always results in more poor people, more hungry people, and an authoritarian government. If they are smart, the socialist politicians leave the productive class enough wealth to keep things going.

### America and Socialism: If You Want to Save America, Read This!

Instead of valuing materialism and conspicuous consumption, it would be better to value psychological self-awareness, an intellectual understanding of history, the expression of loving-kindness, and mindfulness meditation. The Greatest Lie Ever Told The Commandments give us a prescription for civil justice that protects the innocent, an economic system that will not concentrate wealth in the hands of the few, immigration that protects the citizens, morals that protect the innocent from the wicked, ethics that demand true justice and values which will sustain an orderly civil society. The Earth Constitution is the best model available for democratic world law.

### America and Socialism: If You Want to Save America, Read This!

The irony; And after you just got done laying out a metaphysical Platonic ideological system based on the writings of a single man over a century ago.

### It Will Take More Than Socialism and Democracy to Save the World

So, we already have publicly-funded K-12 education and partially-funded, because taxpayer-subsidized, public higher education through state university systems. The last I looked it up, about 25% of people that file federal income tax returns end up paying zero to the federal government

over the course of a year or get more back than they pay, in total, counting both sets of taxes.
