expressed in it are the responsibility of the author alone.

Geographical political economy

For a detailed case study on this point, see Sykes. In fact, it was precisely such exceptionalism that served as the main driver of the 2019 protests. This naturally raises the question of how such changes in the organisation of capitalism influence the lives of everyday people.

Political Economy of the Media

The first is the notion that hegemony entails overwhelming or preponderant material power. The consequence of these decentered and disjointed patterns of relations means that hegemony cannot — at least in this particular historical moment — be understood as a territorializing and homogenizing form of power, but rather a networked and fragmented one which has radical and uneven consequences for the
