## Nash'at al

It has been used as an alienating Brechtian technique the Verfremdungseffekt that makes the audience aware of the unreality of the film experience, in order to focus the audience's attention on the political message of a film rather than the drama or emotion of the narrative-as may be observed in some segments of Sergei Eisenstein's The Battleship Potemkin. For each path, the program can calculate group path length, phase path length, absorption, Doppler shift due to a time-varying ionosphere, and geometrical path length.
