We have designed the MSc in conjunction with one of the world's leading forensic speech laboratories, , and you'll have the opportunity to go on site and observe the working practices of the laboratory.

Forensic Speech Science (MSc)

In some cases, simulating the context of a phone call can be particularly challenging. If the voice signal is divided into segments a few milliseconds long, each segment will contain a vibration with an almost perfectly periodic waveform. At most, we can say that two voices are compatible.

Forensic Linguistics (MA) (full time) (1 year)

This is by allowing there to be time to analyse the said crimes, and the suspected criminals in order for there to be a comprehensive ruling on the case. Even background noises can give clues about the whereabouts of the wanted criminal. This is simply a binary choice.

What Is Forensic Linguistics? (with pictures)

There are many debates as to who is the most qualified to transcribe a difficult recording and what is the best format for both capturing information and presenting to a jury, and I find it fascinating, especially considering how vital a transcript is during a court case. This will be supervised by a member of staff.
