## **Surface geochemical and geophysical studies for geothermal exploration at the southern volcanic rift zone of Tenerife, Canary Islands, Spain**

In 2004 and 2005, when it became apparent that more needed to be done to ensure Ireland met its targets, the government intensified its efforts to reduce carbon emissions. The principle update is the Kyoto Protocol which was initially adopted in Kyoto, Japan on 11th December 1997 and came into force on 16th February 2005. The need to increase this figure is recognized by the EU and measures have been taken to encourage member states to expand their renewable energy production and to rely less on conventional carbon emitting energy production systems.

e

The bill is currently in draft form and publication is expected in July 2011.

## **8. Towards Strategic Development of Geothermal..., Danish Environmental Protection Agency**

Moreover, DEPA DANCEE , and the Danish experts contracted, is well regarded in the CEECs as well as among local stakeholders and other international geothermal players.

### **Geothermal energy**

After introducing geothermal technologies, renewable energy concepts as well as their social and policy context and the regulative and environmental aspects of geothermal energy, the book analyzes and discusses twelve global case studies, and compares the social engagement tools applied with those used in other sectors.
