Transforming Education

To respond to the underrepresentation of racial and ethnic minority groups and men in the nursing workforce, the nursing student body must become more diverse.

Majors and Minors

The curriculum also blends academic preparation with health care career education, thereby opening the doors of college to workers who might not otherwise enroll or succeed Moss and Weinstein, 2009. Hartford Foundation Institute for Geriatric Nursing.

Traditionally, PhD-educated nurses teach in university settings and conduct research to expand knowledge and improve care, although they can also work in clinical settings and assume leadership and administrative roles in health care systems and academic settings. Nurses who work as faculty as their secondary position tend to be younger; among nurses under age 50, more work as faculty as their secondary than as their principal position HRSA, 2010b.
