Aircraft / Aviation

Until 1962, the United States Army, United States Air Force formerly Army Air Force , and United States Navy all maintained separate systems. It made its first flight in 1982 and entered service with the Soviet Air Forces in 1987. The OV-10 was finally retired from the US Army in 1996, but it remains one of the most exciting military aircraft for sale that civilians can get their hands on.

Top 10 Largest Military Transport Aircraft

PDF from the original on 13 April 2015. About 125 of them are still operational.

Military Aircraft For Sale to Civilians

After its service life ended, it played a fairly large role in filming scenes for the Hollywood movie, The Battle of Britain. Light bombers were indicated by the LB- prefix, medium bombers by the B- prefix, and heavy bombers by the HB- prefix. Alternatively it can carry two airborne combat vehicles, that can be paratroopered.
