A number of mineral species that were present on some earlier NH species lists have been eliminated from my list. A dimensional is provided as an aid to understanding the extremes of specimen sizes in the photographs. The splitting of the district into two separate Local Planning Authorities creates some added complexity for place shaping for example the main settlements of Petersfield and Liss are both part of East Hampshire as a place but in planning terms are dealt with independently by the SDNPA.

## Hampshire Minerals and Waste Plan

The rich geology of the South Downs underpins so much of what makes the National Park special: its diverse landscapes, land use, buildings and culture. This display may be electronically coupled to a local copy of these web pages, so that as each specimen is viewed on a web page, the physical specimen is illuminated in the display.

## Development Plan

Development scheme for our planning policies Our development scheme is a project plan for the development of the planning policy documents

which make up our Minerals and Waste Local Plan.
