To some extent, capitalist cities have historically been sites of population control, but the state-sanctioned or authorized transfer of resources and capacities for social reproduction in and out of differently raced and classed communities via infrastructural control turns the city itself into a site of intensified coercion and repression. We then review the literature on the new middle class in Turkey and we explore whether secular and conservative subgroups of the new middle class differ in consumptive and attitudinal dimensions. It moves elite education towards the wealthy.

## The class politics of neoliberalism

First in order came the SMSEs for eleven-year olds that would determine who would take the small number of seats in the best middle schools. The distinctive behaviors and aspirations of four middle class groups are explored in depth by using the results of original qualitative field research carried out among middle class households from two contrasting regions. But over time the original term neoliberalism gradually disappeared since social market economy was a much more positive term and fit better into the economic miracle mentality of the 1950s and 1960s.

## Neoliberalism

Clearly though, putting into play infrastructural systems will also greatly challenge, due to their complex material and technological legacies, a politics of mutual care and autonomy.
