Imam Yahya Hendi, the Muslim chaplain at Georgetown, recently told me that he sees a sense of personal calm as one of the key contributions religion can make to our national life. Culture revelas what is Human in Humans.

Human Evolution Evidence

The idea of an all-embracing project emerging afterwards, even through a series of non-deterministic events, is plausible, even though the existence of such a project can not be rigorously proven by scientific experimental methods only. Through a loan agreement with the British Museum, the new Museum of the Western Isles in Stornoway will receive six of the chess pieces when it opens later this year.

Neither is it enough to realize how probable it is that a personal God would have to show human beings how to live, considering they have so much trouble on their own. Their uniqueness stems from their capacity to produce culture based on projectuality and symbolism more than from the

degree of their morphological evolution or from the associated results.

“Black Box,” by Jennifer Egan

Silence after a roaring motor is a sound of its own. An enemy of the state could not have connived a better way to declaw and distract us.
