We ensure we have enough lighting equipment if we feel the location is too dark.

The Ultimate Pre Production Checklist for Film & Video [FREE Checklist]

The role of the Producer The producer is in charge of two major aspects of the project: the budget and the details. By skipping this step, you will waste time and money and run the risk of not having any sort of backup plan for situations that go wrong. The camera is at the center of the action.

1. Pre

Yamdu is a cloud-based film production management software.

So here is where I'd get my art department's engines revving. Final graphics and other elements are generally placed. You need to control things and have a plan and even another plan for when that one fails.

Video Planning Overview

We understand that a successful operation starts with proper planning. I had many questions and my coworkers were always willing to help.
