### Was Venus Alive? 'The Signs are Probably There'

The curse of our full theory of mind is that we contemplate all of this in the first place.

### Water is the Essence of Life

If I was betting today, I would bet on oxygen on an exoplanet The thing about an amino acid is that it can come in two versions that are mirror opposites of each other, like a left and right hand.

### Why Is Water So Essential for Life?

A research group at the Natural History Museum of Denmark has discovered this by measuring how hydrogen isotope ratios in the oceans have changed over time. And it brings some comfort even when things look pretty dark.

### The Fundamentals of the Water Cycle

And it belongs to the loving supportive mother and the stable loving father.

### Drinking a Gallon of Water per Day: Good or Bad?

Just in different form or intensity. Although water is an integral part of our life and health in particular, we lose it every single day.
