## Vehicle Safety Research

Research results are reported in the publications section of this website.

## **Home Page**

The Journal of Safety Research is a multidisciplinary publication that provides for the exchange of scientific evidence in all areas of safety and health, including traffic, workplace, home, and community. This project sought to perform an initial evaluation of the usability, stability, and potential injury prediction capabilities for two human body models GHBMC-M50-O and GHBMC-M50-OS and the NHTSA THOR FE anthropomorphic test device model in occupant postures that will become more possible with automated driving systems.
