

Sources of physics teaching.

Taylor and francis - Resources

1. IOP support for teaching and learning across the UK and Republic of Ireland

There are two main sources of information and support available from the IOP centrally.
The first of these is Covid-19 page on IOPSpark.
<https://spark.iop.org/supporting-schools-and-colleges-during-covid-19>
This page has a selection of resources: videos, home experiments, and questions from IOP, and in some instances other similar organisations, which have been checked by IOP's Professional Practice Group and members of IOP Physics Coach team. They are organised by age range: 11-14, 14-16, and 16-18, and by the seven subject themes used by IOP to organise its resources.
The second source is the Covid-19 Group on TalkPhysics.
<https://www.talkphysics.org/groups/talking-physics/forum/topics/supporting-schools-and-colleges-during-covid-19>
Here anyone who is registered on TalkPhysics can share information and resources.

Description: -

- Sources of physics teaching
- Sources of physics teaching

Notes: Selected articles reprinted from volumes 8 and 10 of Contemporary Physics.

This edition was published in 1970

How to Learn Physics: 13 Steps (with Pictures)

The ComPADRE Digital Library is a network of free online resource collections supporting faculty, students, and teachers in Physics and Astronomy Education.

The Physics Classroom Website

Every energy source is explained with examples and the process of its conversion to electricity. X Research source Talk through concepts and problems with other students or professors. Carlson Phys 231B Marolf Phys 231C Horowitz Phys 235 Martin Phys 236 Hennawi Phys 260J? The website is sponsored by the Princeton Plasma Physics Laboratory, a U.

PhysPort: Supporting physics teaching with research

They have a good library and several works about physics in their. To be frank, due to laziness, one of the requirements for all the tools is that they have to be easily installable.

Physics Classroom Resources

Meredith Juncker is a PhD candidate in Biochemistry and Molecular Biology at Louisiana State University Health Sciences Center. ComPADRE Digital Library APS has partnered with AAPT, AIP, and AAS to create the , a collection of electronic educational materials in physics and astronomy.

Resources

Some of the titles have reviews by users.

Physics Education Resources

Also includes resources for teachers.
