Added by Acts 2003, 78th Leg. In some cases, however, we observed companies putting the cart before the horse—enamored with the promise of artificial intelligence and advanced analytics, they mandated that the black box—modeled output prevail over subjective underwriting judgment. Social inflation generally refers to the rising costs of insurance claims that are a result of societal trends and views toward increased litigation, broader contract interpretations, plaintiff-friendly legal decisions, and larger jury awards.
