## Manual of Patent Examining Procedure

However, other sources of financing, small business advice and support services are available on Innovation, Science and Economic Development Canada's or by calling 1-800-328-6189. Other topics include trade secrets, research exemptions, and the protection of traditional knowledge related to biological resources.

## Bio

But no matter how you apply, you will have to abide by the patent laws of that country. Bioethics and Patent Law: The Case of the Oncomouse June 2006 The Oncomouse, genetically modified to develop cancer for the purposes of medical research, raised complex ethical issues for patent authorities.

## Patents

United States - patent granted The United States Patent Office in 1988 granted a patent no. In the original application, the claims referred to animals in general, but in the course of the proceedings, the patent was amended and finally maintained with claims limited to mice. For those who need to pursue protection on their own I have developed a self help system — — for preparing and filing a provisional patent application.
