Vol. 94, No. 4, December 2003 of Isis on JSTOR

When Caroline wasn't working as her brother's assistant, she was sweeping the stars with her own small telescope given to her by William L: There are certainly others, but these give you an idea of just how much work goes into tearing down this great man narrative of history.

Vol. 94, No. 4, December 2003 of Isis on JSTOR

Davidson and Linda Wagner-Martin eds New York: Oxford University Press, 1995. Like, not only was she, she had a whole career as an actress, but now she is really worth our notice now, and we should recover her story now, because we have been able to label her as an inventor and that is something that we value. And I think Hedy Lamarr is a really good example of that.

Alice Middleton Boring

And who decides, you know, which stories we get to tell about the past? A Biography of Alice Middleton Boring: Biologist in China.

Episode 7: The Great Man Theory of History is Garbage — Lady Science

Urbana: U of Illinois P, 1996. Because it is literally everywhere.

Sara Tjossem, Marilyn Bailey Ogilvie;, Clifford J. Choquette. A Dame Full of Vim and Vigor: A Biography of Alice Middleton Boring, Biologist in China. xviii+217 pp., illus., bibl., index. Amsterdam: Harwood Academic Publishers, 1999. \$38

We talk about not just what the actual theoretical science is but all of the things that make this science possible, and so many women are involved in that. So, a herstory response would be to elevate those women who did, which includes Marie Curie, twice.

Alice M. Boring: a pioneer in the study of Chinese amphibians and reptiles

R: One thing where I see this really structurally like, like literally structurally shows up is in historic preservation. Well, by digging into that, we were able to find, or I was able to find some biographical information, there is some very very, wonderful, there is a wonderful recent book on those computers. So, if this is you, please get in touch with us and send us an email to ladyscienceinfo@gmail.com.
