Neotectonics of the Sea of Galilee (northeast Israel): implication for geodynamics and seismicity along the Dead Sea Fault system

Syn-rift sediments show fanning and growing structures, indicating tectonic subsidence driven by a dip-slip extensional trans-tensional fault s at the eastern edge of the basin Fig.

Abstracts

We note that the sequence is well confined, bounded by a sharp eastern limit corresponding to the DSF principal displacement zone, and developing mostly in the NW sector of the lake Fig. Gas seepage and seismogenic structures along the North-Anatolian Fault in the eastern Sea of Marmara.

Front Matter on JSTOR

This is, to our knowledge, the highest value ever recorded for any terrestrial gas sample. Extremely small, 9 micron voxels were obtained which allowed reconstruction of coin slices in any plane. General information about the libraries, their collections, services, accessibility, networks and networking were the main focus.

תנאים

CLUA MERCADAL, Maria, Gabinet numismatic de Catalunya- MNAC, Spain Alternativas monetarias adoptadas en Catalunya durante la baja edad media Durante la Baja Edad Media se dieron en el territorio catalán alternativas monetarias que acompañaron a la moneda acuñada en las cecas reales de Barcelona y Perpiñán. Questo tipo di coniazione, emessa da pro-magistrati romani cum imperio nelle province da loro controllate, rappresenta uno spartiacque nella gestione delle zecche esterne a Roma, siano esse zecche mobili o provinciali.

Notice de personne David H. K. (1910

The coins usually identified as the regal issues of the Achaemenid Persian kings are pieces with royal-archer obverse types and incuse reverse, conventionally termed gold darics or silver sigloi. There may be drawn historical parallels among the mints, for example between Nicomedia and Cyzicus, however some of the distinctive features have no parallels elsewhere, for example some features of Antiochene coinage. This means that comparative studies of certain technological aspects of ancient minting, such as the composition of blanks, are very rare.
