## Performance Evaluations for Staff

ERGs are led by employees in an effort to foster a supportive environment and to enhance company policies around diversity and inclusion As well as helping to build communities among people with shared identities and experiences. Knowing the real costs of each program allows us to make informed decisions and choices that will lead to mission and financial success. One way to start communicating this need is to write a formal resource allocation plan.

## True Program Costs: Program Budget and Allocation Template and Resource

This distinction has been problematic for many nonprofits because of the simplistic idea that common costs such as rent, utilities, and technology are all indirect costs, or overhead. Allocate staff salaries, benefits, and taxes Given the significance of personnel expenses to our finances, allocating these costs is essential to understanding true costs.

## Resource Materials

Still can't find your institution? Human resource development is a fundamental part of what makes an employee successful as an individual and what makes an organization successful as a whole. By Chandni Kazi and Claire Hastwell. The formulas should be revisited if there are major changes in the way expenses are used, such as staff reassessments or growth of a program.

## COVID

So management decided to explore resource allocation in order to get a better grasp of how much people were working in terms of numbers— rather than relying on idle complaints.
