Finnish Artificial Intelligence Symposium STeP-88 , 15. Its thick volume of Appendices is the most comprehensive document on the UEL, including historical data; biophysical inventories; views of numerous people, organizations, institutions, and governments; uses of the woodland, proposals for future use, et cetera UEL Study Team, 1977b.

IUFRO: IUFRO World Congresses / Events

Long-Term Ecological Research in a Human-Dominated World.

FORESTS AND RESERVES IN CENTRAL AND EAST EUROPE

The legacy from this land use is a grove of non-native trees, not otherwise found in the UEL woodlands—honey-locust, horse-chestnut, English oak, Norway maple and Manitoba maple—most likely established from the seed of city refuse.

Items where Subject is

Colloques ISBN 2-87614-224-4 Rencontres cacao, les différents aspects de la qualité, Montpellier, France, 30 June 1995. Awareness of trees through sensory perception, and the individual's receptivity to sensory images from his surroundings are the keys to enrichment of body and soul by trees Poole, 1970:78.
