## Decorative bookbindings

Chevron The chevron has the shape of an inverted V, its members touching the sides of the shield. Fan binding : a decorative style for de luxe bindings made in France and Italy, mostly during the later seventeenth century. Geological motifs include the mount, which is a grassy hillock, invariably used in crests as a base on which usually stands an animal.

## Fine Bindings and Library Sets from Peter Harrington Rare & First Edition Books.

The dust jacket is now protected with a clearcover.

## National Art Library collection of armorial bindings

Unique tradition in Scotland Scotland has a unique tradition of decorative bookbinding, and at the Library we have collected examples of this craft for many years.

## Search Results: Materials equal to 'Vellum'

Azure a fleur de lys argent in dexter chief a mullet Digby 5. It is used in much the same way as a crest coronet and is usually seen surmounted by a charge.

## National Art Library collection of armorial bindings

If it is multi volume set, then it is only single volume, if you wish to order a specific or all the volumes you may contact us.

## Eighteenth Century Relieurs

The author and title are gilt in the second and fourth panels. The earliest known examples of printed bookplates are German, and date from the 15th century. It is hoped that this simplified approach to heraldry will be excused by those who are well versed in armory.
