Video Production Courses for TV and web in Albany

I'm concerned with the longevity of Final Cut Pro over time because of the way Apple folded up shop on photographers by abandoning Aperture.

Final Cut Pro for iPad is a plausible future

After a few years, once you know exactly what you want to do which you can't with the basic editor - then upgrade to the full version. Even on the iPhone, the user interface is surprisingly spacious and easy to use, especially after watching the quick start video linked in the Help menu.

But the basic versions have every basic feature you'll need.

Download free Neat Video plug

Earlier this year, it was reported that Apple was working on an iPad version of Final Cut Pro.
