A Treatise on the diseases and surgery of the mouth, jaws and associate parts : James Edmund Garretson : Free Download, Borrow, and Streaming : Internet Archive

In the Army, its surgeons and their assistants provided treatment. In Britain, dentistry was unregulated and undertaken by tooth-drawers and also operators for the teeth, a term adopted in the seventeenth century to indicate someone who undertook a wider range of treatments than just extractions. Hunt provided the first recorded anaesthetic use of cocaine by injection in Britain in 1886 when he used it in an infiltration technique.
