### Amberwood. Auckland, New Zealand

The gates to the parking lots are almost always broken, thus any vandal who wants in can just waltz in and do whatever he wants. This is a great place but you need to be flexible. The fitness center that they charge towards your rent has been closed down for months with no signs of re-opening any issues you have within your apartment takes weeks to fix! We invite you to come and experience the warm, friendly atmosphere and become part of the Amberwood family! We did call the number on the door but never got a response.

### Amberwood. Estes Park, USA

### Amberwood Care Centre
