## ① Markovi Kuli or Markos Towers are situated to the northwest

During the four-decade archaeological research, remnants indicating the existence of an early antique settlement - Keramija, were found.

### Muzeum w Stargardzie

The walls are about one meter thick and were built of limestone mortar and rest upon the large limestone rocks. In the west side, there are graves inserted into the rock.

## ① Markovi Kuli or Markos Towers are situated to the northwest

DOSTĘPNOŚĆ: Dostępna tylko na miejscu. The lowest zone of the rampart consists of a row of short walls drawn in a broken line.

### Muzeum w Stargardzie

. According to some historical findings, until the second part of the 14th century and even later, this fortress was defended by only 40 soldiers.
