Raising of the School Leaving Age

However, the 16-18 age group falls into a grey area, being regarded as effectively adult in a number of contexts. Vocational training, such as student-work programs, may be useful for providing students who would otherwise typically not go on to college with real-world work experience, which may in turn open doors to a successful career.

Raising of school leaving age

Although a strictly enforced minimum school-leaving age should, in theory, cause every student to either remain in school until the requisite age or face a penalty, compulsory-schooling laws tend not to be strictly enforced, often for reasons of cost.

Raising of school leaving age in England and Wales

To that end, nontraditional programs that have a clear track record of proven results should be eligible to fulfill the requirements of compulsory-schooling laws. In most countries, the school leaving age reflects when young people are seen to be mature enough within their society, but not necessarily when they are old enough to be regarded as an adult.
