If the elements don't get you, the killer certainly might! You can stop telling us.

**One by One: The snowy new thriller from the queen of the modern**

The plot is dragged out, andt even after the first major event, it continues to drag.

**One by One: The snowy new thriller from the queen of the modern**

It's a fun way to discover new music and be able to sit back and listen along with celebrities such as Lady Gaga and Beyoncé as they are listening to their favorite music. The only thing I really enjoyed about this book was the narrator on audible Imogen Church, she done an incredible job reading this! Really, Claire, we get it.
