## EMERGING ISSUES IN AGRICULTURAL TRADE AND THE ENVIRONMENT

In this country much of the recent literature on the microscopy of paper fibers has been borrowed from German textbooks, but the scientific application of the microscope in practical laboratory work has been stimulated by a few well-known microscopists, among whom we may mention Christie photomicrographs and Flatters preparations and by the work done in the laboratories of technical chemists connected with the papermaking industry: among the latter we find Cross and Bevan, Evans and Wirtz, Gemmell, Beadle, and Sindall, all of whom have done much for paper microscopy by research work, publications and translations, and personal tuition. Carried forward Carried forward 118,551 65 1,054,75021 123,218 80 1,056,21794 C— 12 AUDITOR GENERAL'S REPORT, 1922-1923 14 GEORGE V, A. For example in the United States, 90% of the population were farmers in 1790.
