Recommendations regarding the safe load weight, size, location and frequency of handling are presented along with mitigating factors such as worker training and physical fitness. It is difficult to strike this balance but it's something we do better than most vendors.

Outreach Training Program

The 10-hour class is intended to provide workers with awareness of common job-related safety and health hazards, while the 30-hour class is more appropriate for supervisors or workers with some safety responsibility. The Outreach Training Program provides basic safety and health information and education — it does not fulfill an employer's requirement to provide training under specific OSHA standards.
