## Symphony guide: Beethoven's Eighth

This analysis of musical paradox in the selected works of Beethoven provides an effective means of interpreting the many apparently contradictory aspects of this repertoire, and serves as a useful model for the future analyses of narrative design and expressive structure in nineteenth-century music. Later analysis by Thorne and showed that for certain initial trajectories of the billiard ball, there could actually be an infinite number of self-consistent solutions. They found more than they had bargained for.

### Causal loop

A notable fictional example of a self-fulfilling prophecy occurs in the classical play , in which becomes the king of and in the process unwittingly fulfills a prophecy that he would kill his father and marry his mother. Oh, God, gaze at the beauties of Nature and prepare your mind for the inevitable. She was thought by some to be a perfect spiritual partner to a spiritual composer.
