## Transnational corporations and Third World consumption: Implications of competitive strategies

The less successful groups, moreover, tended to have higher budget deficits, to have more volatile deficits over time, and to shrink their deficits at a slower rate those in the poorest performing group actually expanded their deficits during the 1980s. X is the time axis. Thus, it became established policy for the Bank to stipulate who would staff these autonomous agencies.

## WTO

INTERNATIONAL ORGANIZATIONS AND NEGOTIATIONS Policies, agreements and institutions in the field of international economic, financial and monetary cooperation should be guided by the principle of universality. The outcome of this study will be useful to government of Nigeria and the general public on the role of multinational corporation in the economic growth in Nigeria.

## Industrialization in Malaysia: Changing role of Government and Foreign Firms

Activities of the multinational corporations in Nigeria have generated a repulsive reaction from many economic theorists like Onimode 1982.

## The Brandt Report: A Summary

Efforts to enhance export performance will require not only technical assistance aimed at strengthening the institutional infrastructure for trade and trade policy, but also initiatives aimed at enhancing the outward orientation of the private sector. For ages, economists have warned repeatedly against the danger of such a monopoly capitalism.

## Re: MACHO ALERT: Women and World

A space economy of regionally based urbanization in which the proliferation of manufacturing facilities in rural locations along urban-centered

transportation corridors has caused the social and economic traits of rural spaces and their residents to become urban in character.

## **TAN SRI DR FONG CHAN ONN: CURRICULUM VITAE**

At the same time, the rich industrial countries of the North are called upon to share their means and power with the countries of the South.

### **The Brandt Report: A Summary**

Yet gender bias accounts for much of the difference in earnings. A distinction is drawn between the comparatively large human population that lives in relative poverty in the South, compared to the smaller and more affluent population of the North. Low-quality satellite TV more and more substitutes national TV output; the transnational economy dominates more and more domains of radio, TV, and the press.

### **Transnational corporations and Third World consumption: Implications of competitive strategies**

At the same time, an important feature of the tariff commitments made by the developed countries in the Uruguay Round is a substantial increase in bound duty-free treatment. .
